**RE:** IDAHO ONLINE SR-22 INSURANCE SUBMISSION THROUGH IDAHO INSURANCE VERIFICATION SYSTEM (IdahoIVS)

**DATE:** SEPTEMBER 3, 2024

Idaho is excited to announce that Idaho's current reporting methods for SR-22 coverage and SR-26 cancelations will be transitioned over the next few months to the Idaho Insurance Verification System (IdahoIVS). This system is already used for the verification of proof of liability insurance for vehicle registrations. This new process will allow for more efficient and expedient processing of your customers SR-22 coverage.

IdahoIVS is expanding beyond the standard motor vehicle liability insurance and will be able to perform real-time updates for SR-22 coverage through this move. This is a major improvement for you and your customers. It will also allow real-time processing of SR-26 filings when necessary. This transition will require all insurance companies authorized and who sell SR-22 policies in Idaho to register with the new system, if not already registered.

January 1, 2025 is the deadline for insurance companies to start sending SR-22 and SR26 submissions through the IdahoIVS using FTP or the IdahoIVS web portal. All other submission methods are going away. The best news is that there is no cost to insurers to use this new, convenient real-time method.

More information is available in the guide attached. Section 6 specifically applies to the filing of SR-22 and SR-26 policies. This guide and any future updates will be posted on the IdahoIVS website.
